

OFFICIAL CERTIFICATE OF EVALUATION

Certificate No. TS-91B82A18

62.72

RESPECTABLE

JUDGE VERDICTS

Detective Rye (59.17)

The perp carved a face into the victim before the heat hit.

Auntie Mei (62.50)

This toast looks confused — just like you when you try to be creative instead of focusing on basics.

Professor Crumb (66.50)

The anthropomorphic cutout pattern, while aesthetically engaging, fundamentally compromises structural integrity and creates irregular heat distribution zones (Thompson & Lee, 2021, International Toast Engineering Review, vol. 12).
